

#### FEATURES

- ✓ 24Vdc (100mA)
- ✓ Wall mounting
- ✓ Reversible release button
- ✓ 100kg Rated
- ✓ Spring ejected
- ✓ Anvil included

#### PRODUCT DESCRIPTION

The MDH1360 is made from high quality di-cast aluminium and steel and finished in black powder coat, which makes them very robust, attractive and compact. They also feature a high quality easy-to-use releasing switch that can be conveniently mounted on either side of the surface mounting unit.

The door holder current consumption, heavy duty anvil and holding capacity of 100kg is adequate to retain fire doors, swinging or sliding on all of your installations.

FireSense also supply a momentary release switch on a standard gang plate to allow release of fire door from an easily accessible location.
