

MDH1370 50kg Door Holder with 15-30cm Extension Arm

FEATURES

- ✓ 24Vdc (60mA)
- ✓ 50kg holding power
- ✓ Wall / Floor mounting
- ✓ Release button
- ✓ Spring ejected
- ✓ Anvil included

PRODUCT DESCRIPTION

The MDH1370 is made from high quality di-cast aluminium and steel and finished in black powder coat, which makes them very robust, attractive and compact. They also feature a high quality, easy to use releasing switch.

The fixing bracket enables them to be floor, ceiling or wall mounted, in either axial or perpendicular position. The electromagnets are made up of the following, the electromagnet mounted on an aluminium support, the extension pole is made from mild steel, and the base cover and the counter plate are in thermoplastic.
