

#### FEATURES

- ✓ Pre-drilled to suit strobe range
- ✓ Powder coated white
- ✓ Screen printed for durability
- ✓ Complies to AS1670:2018

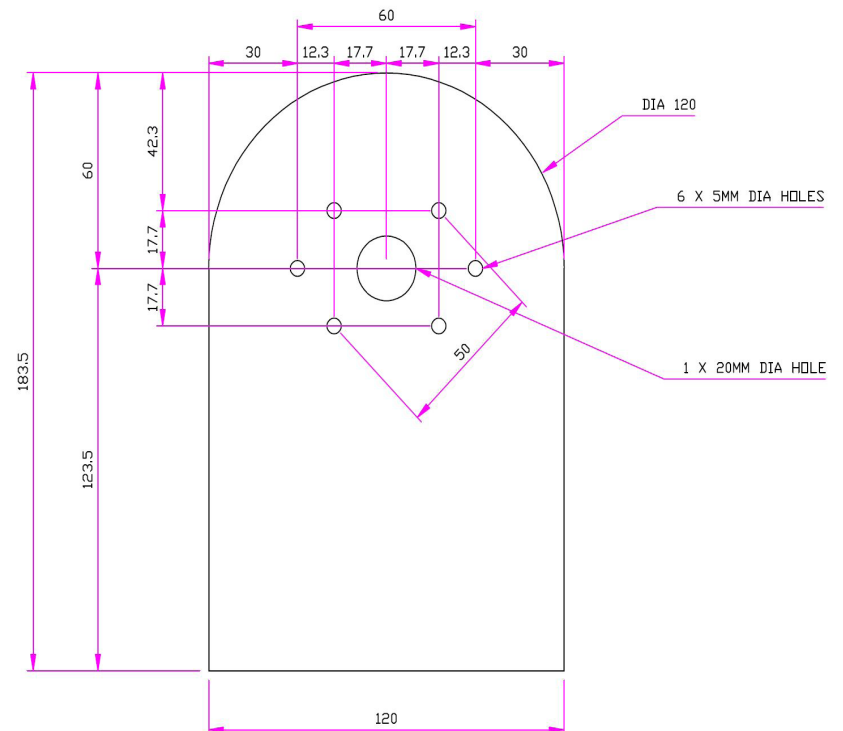

#### PRODUCT DESCRIPTION

Designed to meet the requirements of AS1670:2018, our new strobe label is constructed from mild steel then sealed and powder coated white. Pre-drilled holes have been included to reduce the risk of rust forming and have been spaced to suit the FireSense strobe range. The word “FIRE” has been sized as per the requirements of AS1670:2018 and utilises a contrasting background as per the requirements.
