

FEATURES

- ✓ Custom designed speaker and transformer assembly engineered to be vandal resistant
- ✓ High degree of speech intelligibility.
- ✓ Tamper resistant Torx screw fasteners

PRODUCT DESCRIPTION

Designed to withstand the physical abuse of vandals.

Access to the 130mm twin cone speaker requires the use of a torx bit, minimising unauthorized tampering and/or theft.

Features an enclosed transformer and magnet providing superior protection from damage and debris. Adjustable mounting bracket suitable for ceiling thicknesses from 4mm to 35mm.

Recommended for use in prisons, train stations, bus stations, pedestrian malls, public housing etc

TECHNICAL SPECIFICATIONS

Power Taps	1.25W, 2.5W, 5W, 10W
SPL 1W @ 1m	94dB @ 1kHz (+/- 2dB)
SPL Max	102dB @ full power octave bandwidth
Frequency Response	70Hz - 17.5kHz
Dispersion	180°
Connection	5 way terminal block + 22uF bipolar capacitor
Dimensions	189mm overall Ø x 110mm D (140mm grill Ø)
Ceiling Cutout	160mm Ø
Grill Material	Steel mesh grill
Weight	1kg
Operating Temperature	-15°C to +60°C
