

#### FEATURES

- ✓ Dual range - low and high
- ✓ Built-in weighting curves
- ✓ A & C weighting
- ✓ Response can be switched between slow or fast
- ✓ Maximum hold switch displays the highest reading attained

#### PRODUCT DESCRIPTION

The METER-SPL meter has been designed to meet the measurement requirements of safety engineers, health, industrial safety offices and sound quality control in various environments. The METER-SPL is a compact unit great for checking ambient sound pressure levels for tendering purposes or commissioning.

It ranges from 30dB to 130dB at frequencies between 31.5Hz and 8kHz.

Display with 0.1dB steps on a 4-digit LCD.

Supplied in a protective carry case, tripod mounting adaptor and mic wind screen.

Requires 1 x 9V long life battery (included).

*Note: This is an indent item, lead times may apply.*

#### TECHNICAL SPECIFICATIONS

Ranges	Low: 30 - 80dB    High: 80 - 130dB
Resolution	±0.1dB
Frequency range	31.5Hz - 8000Hz
Dynamic range	50dB
Frequency weighting	A & C
Microphone	Electret condenser
Battery	9V
Dimensions	252mm H x 66mm W x 33mm D
