

FEATURES

- ✓ Quick fit arbor
- ✓ Made from high grade steel
- ✓ Precise 140mm cut
- ✓ Has additional holes to allow easy removal of excess waste material
- ✓ Suits battery drills as well

PRODUCT DESCRIPTION

This high speed steel holesaw cuts a precise, neat 140mm hole into 13mm plasterboard, plywood, acrylic sheet, etc. It is not recommended for cutting metal. It is suitable for both battery and electric power drills with a standard 3/8" chuck.

The holesaw compliments the FireSense FS-SP4 and FS-SP4-7240 ranges and is a must have for all installers.
