

Product Bulletin

Reference #: 16-007
Date: 11th August 2016

Discontinuance notice:

Due to the recent introduction of AS 4428.3-2010 the NFS Series of conventional panels is unfortunately not anymore meeting the changing regulatory requirements. For that reason NOTIFIER is discontinuing the NFS series of Conventional Fire Alarm Control Panels.

It is our intention to continue to offer spare parts for the discontinued product until the cost of circuit board components are prohibitive or vendor supplied components become obsolete.

The CFP-16 series is currently the recommended alternative to the NFS series.

Please contact your Notifier Systems Consultant to discuss specific NFS replacement application or support questions. Technical questions should be directed to NOTIFIER technical support.

Item Information:

Item No.	Description	Notice
11402	NFS2 – 2 zone Conventional FACP	discontinued
